

Das Konzert Album

Rupi's new solo album "Das Konzert Album" will be released in 2021 on JazzSick Records (5151 JS).

Stylistically, as always with Rupi, the concert album is difficult to classify: a fascinating musical mix of jazz, funk, urban beats, industrial, lounge - the result is club sound with an addictive factor - and with a lot of atmosphere - impressions, visions, memories of that Life in the Ruhr area in the 60s - a life caught in the rhythm of industry - normal everyday life, unsentimental and still gripping - the sounds almost psychedelic - hypnotizing beats - catchy melodies.

The concert album can be found on all common platforms and streaming services. You can buy it as a CD in the JazzSick online shop.

Have fun with it.
